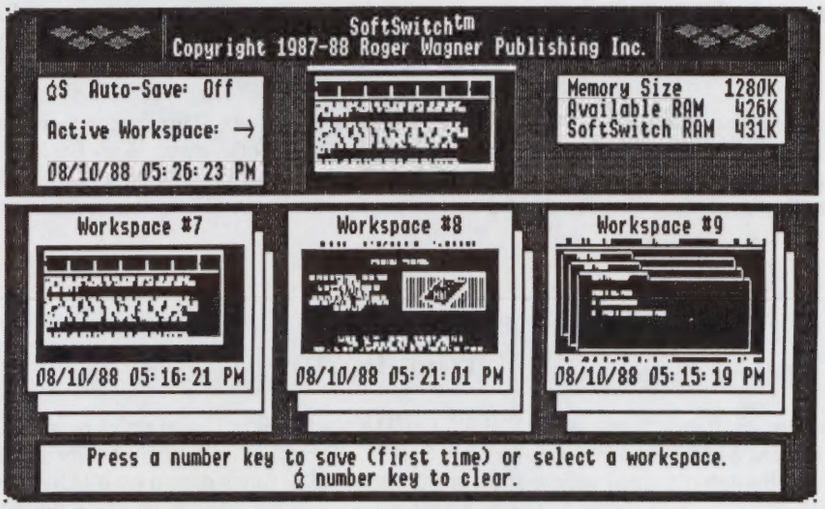
If You Thought 3 Computers-in-One Was Great With SoftSwitch, How About 9?!



SoftSwitch has been recently improved to now support the switching of up to ***nine*** separate programs, depending on available memory! Each switched program takes 133K of RAM, but the exact number switchable will depend also depend on other factors such as additional CDAs, etc. that you have installed.

Other improvements include:

• **Copy & paste Super Hi-Res graphics screens.** Although programs like Deluxe Paint are not switchable by SoftSwitch, you can copy any Super Hi-Res screen. Captured screens can then be pasted into the Screen Manager program to save to disk, for later printing or editing with your favorite graphics program.

• **Copy & Paste 40 and 80 Column text screens.** Many SoftSwitch users have asked for the ability to capture a text screen and save it as an ASCII text file. SoftSwitch can now copy both 40 and 80 column text screens, and paste them into the Screen Manager program, which in turn saves them as a TXT file. This file can then be read by other programs such as MouseWrite, AppleWorks, and others.

• **Fast Path operation:** This feature, when activated, completely bypasses the Desk Accessory Menu when entering and leaving SoftSwitch. This means that switching programs is even faster because pressing Control-Apple-Escape takes you directly to SoftSwitch. After selecting the workspace to switch to, pressing Return then takes you instantly back to that application. The Desk Accessory Menu is still available with a special Apple-D command in SoftSwitch, and the Fast Path option can be turned on and off with a simple command.

• **P8CDA Compatibility:** SoftSwitch has been re-designed as a Classic Desk Accessory, and made compatible with P8CDA. P8CDA is a utility file that you can add to ProDOS 8 disks to load CDAs during the startup process. This lets you put SoftSwitch right on your AppleWorks, Copy II Plus, Merlin, etc. disks.

• **No use of Battery RAM:** SoftSwitch no longer sets a flag in battery RAM, which makes it more convenient in those instances where the Control Panel settings are lost due to electrical problems or failures of application programs.

• **All disk version of SoftSwitch Install:** The SoftSwitch Install program can now be put on any of your disks, including the 3.5" System Disk, hard disks, and ROM/RAM disks.

SPECIAL UPDATE PRICE:

If you would like to receive this latest version of SoftSwitch, simply return the yellow stub left from the registration card in your SoftSwitch manual (that's our clever "proof-of-purchase" marker!), and a check for $19.95, plus $4.00 shipping ($23.95 total, $25.25 for CA residents). We'll immediately send you the new SoftSwitch disk, plus a booklet describing all the new features.

For your convenience, an order form has been included on the opposite side.

Special Accessory Product:

P8CDA

(ProDOS 8, Classic Desk Accessory Loader)
by David Lyons

P8CDA is a nifty accessory by David Lyons that lets you put Classic Desk Accessories on your ProDOS 8 startup disks, thus avoiding the long startup time of ProDOS 16, while still enjoying the benefit of Classic Desk Accessories like SoftSwitch.

Normally, CDA's can only be installed by ProDOS 16 as a disk is started up. This means that you couldn't ordinarily put SoftSwitch, or any other CDA on, for example, a ProDOS 8 AppleWorks disk. With P8CDA, you simply create a folder named System, and within it a folder named Desk.Accs. During a ProDOS 8 startup, a disk with P8CDA on it will then go to the System/Desk.Accs folder, and automatically install any CDAs found there, and then finish the startup process as it would normally do.

P8CDA has a usual list price of $29.95, but if you order it with SoftSwitch as part of this announcement offer, you can purchase it for just $19.95!

Order Form

Ordering Information: SoftSwitch retails for $59.95, P8CDA for $29.95. If you order now, you can get the SoftSwitch update for just $19.95, and P8CDA for only $19.95. To order SoftSwitch, and/or P8CDA, simply return this form, with the SoftSwitch reg. card yellow stub, and a check (U.S. funds drawn on a U.S. bank only), money-order, or charge card information to Roger Wagner Publishing, Inc., at the address listed on the other side of this flyer.

Item	Price	Extension
